

TURBO CHICK FEEDER

Code: TCF4

“Turbo Chick Feeder” is a upgraded and modern technology feeder compared to conventional design. It can be used for broiler chicks from 1 to 15 days age. Wider Hopper with 6 feed distribution windows and a “W” shape pan make feed feeling easy and uniformly. The farm trial results show up to 14% higher final live weight & serving upto 50 to 70 chicks per feeder.

Easiest and most effective system to adapt chicks to automatic feeding systems. 100% high impact plastic, UVA and UVB resistant. Easy assembly and storage.

Salient Features:

1. Prevent to enter chicks inside feeder pan
2. Easy feed filling due to wider hopper
3. Quick, easy & uniform feed feeling in pan with 6 distribution windows
4. Stand can be used to adjust height of feeder as per chicks age
5. Increase Feed Conversation Ratio & Flock Uniformity
6. Eliminates Feed Waste
7. Easy cleaning, storing and handling due to innovative design
8. Feed holding capacity is 4kg.

Placement Alternatives:

1. Brooding Rings
2. Along water lines
3. Along feed lines
4. Zigzag between water and feed lines
