Product Variants:

1. CENTRE PARTITION WITH TWO LEG (SIZE: 30x15 INCH):

- Application: Main center divider between two flocks or rows inside EC houses
- Design: High-strength square mesh grid with reinforced structure
- Ventilation Friendly: Open grid design allows airflow while maintaining separation
- Feet Support: Fitted with wide plastic bases for secure floor standing

2. LINE PARTITION WITH ONE LEG (SIZE: 7X15 INCH):

- Application: Used for creating lanes, feeding corridors, or isolating small sections
- Design: U-shaped channel for side partitioning or corner turns
- Notch Design: Special cut-outs allow easy fixing or alignment with other panels

✓ Key Features:

✂ Material: Made from durable UV-stabilized PP (Polypropylene)

💧 Waterproof & Easy to Clean: Washable and suitable for wet environments

♻ Re-usable & Eco-Friendly: Long life, fully recyclable material

🐔 Bird Friendly: Smooth edges, safe for broilers and layers

⚖ Lightweight: Easy to shift and install with minimum labor

✂ Interlocking Option: Custom shapes allow flexible modular layout

🏠 EC House Compatible: Designed for use in temperature & humidity-controlled poultry sheds
